1. The first group of people who are interested in the results of the study are the researchers themselves. They want to know if the study was successful in achieving its objectives and if the data collected is reliable and valid. They also want to know if the study has contributed to the existing knowledge in the field and if it has any practical implications.

1. *Chlorophyll a* and *Chlorophyll b* contents were determined by spectrophotometry using the method of Lichtenthaler and Wherry (1987). The total chlorophyll content was calculated using the following formula:

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

1. The first group of people who are not included in the census are those who are not registered in the household. This group includes people who are away from home for long periods of time, such as those who are in the military or working in a distant location. They are not included in the census because they are not part of the household.

1. The first group of people who are not allowed to enter the country are those who are on the "no-fly" list. This list is maintained by the Federal Bureau of Investigation (FBI) and the Department of Homeland Security. It includes individuals who are suspected of being involved in terrorism or other activities that could threaten national security.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.
